

Descaling tablets

Tablets for descaling JURA fully automatic machines for coffee specialities

Action

Descaling tablets based on sulphamic acid specially developed for JURA fully automatic machines for coffee specialities, for thoroughly removing deposits and scale. The formulation is precisely adapted for use in JURA fully automatic machines for coffee specialities, and ensures effective descaling without damaging the material. As a result, the service life of your fully automatic machine for coffee specialities is extended. They can also be used in all other areas such as kettles, boilers, etc. where there are scale and deposits.

Properties

Tablet, cubic, white
Neutral odour
Height: 9 mm
Width: 36 mm
Weight: 17 g
Soluble in water
pH value (25 °C), 12 °dH
17 g/0.5 l: < 2
Dissolving time (0.5 l/30 °C): < 5 min

Constituents

Inorganic acid
Organic acid
Corrosion inhibitors

Recommended use

1. In a container, dissolve the content of one blister pack (3 tablets) in the volume of water specified below. Note: Use lukewarm water (max. 40 °C) to ensure it dissolves rapidly.
2. Start the descaling operation as described in the operating instructions.
3. Pour the mixture into the water tank at the time specified in the operating instructions.
4. The rest of the procedure is described in the operating instructions.

Note: You can check the water hardness using the enclosed test strips.

Mixing ratio: IMPRESSA C, E, F, J class, ENA: 0.5 l, all other IMPRESSAS: 0.6 l, SUBITO: 0.7 l, JAGUA S60: 0.4 l, JAGUA D70: 0.3 l

Toxicological and environmental data

The product is an irritant, i.e. temporary, protracted or repeated contact with the skin can lead to inflammation. The function of public sewage treatment plants is not affected even when relatively high volumes are added. Biodegradability is in accordance with the applicable conditions of the Washing and Cleaning Agents Act (WRMG – German Law).

Notes on handling, storage and disposal

Keep the package tightly closed, protect against atmospheric moisture, water and heat.

Product waste code: 20 01 30, 20 01 29

All constituents are biodegradable. Residual product can be disposed of down the drain.

Danger notes

Xn – Harmful.

R22: Harmful if swallowed

R36/38: Irritating to eyes/irritating to skin.

S02: Keep out of the reach of children.

S13: Keep away from food, drink and animal feeding stuffs.

S46: If swallowed, seek medical advice immediately and show this container or label.
